

## Kharal Machine

### Silent Features

- ✔ Constructed from high-quality granite, which is non-porous, durable, and resistant to chemical reactions.
- ✔ Granite's natural hardness ensures longevity and consistent performance.
- ✔ Traditional design optimized for maximum efficiency in grinding and mixing.
- ✔ Heavy-duty construction to handle high loads and continuous operation.
- ✔ Non-reactive surface ensures no contamination of pharmaceutical products.
- ✔ High precision in grinding and mixing, ensuring uniform particle size and consistency in mixtures.
- ✔ Available in various sizes and capacities to suit different production needs, from small-scale to industrial-scale operations.
- ✔ Can be customized to meet specific requirements of different pharmaceutical formulations and processes.
- ✔ Simple design makes it easy to operate with minimal training.
- ✔ Suitable for a wide range of pharmaceutical and Ayurvedic applications, including the preparation of pastes, powders, and emulsions.
